HIGH-TECH PRECISION ENGINEERING

**PATHOLOGY
& MORTUARY
SOLUTIONS**

Mac Brothers has collaborated with a leading UK producer to manufacture internationally renowned mortuary equipment to complement its current range of body storage racking systems.

Association with leading UK producer

Innovator of Down Draught technology with more than 35 years of experience in supplying and installing uncompromising levels of user protection and clinical effectiveness. Reputable as a global reputable leader in the supply of excellence in quality and performance and hundreds of installations worldwide. (References available upon request.)

Design

Mac Brothers has a fully qualified team of designers to liaise with clients, from conceptualisation stage through to final building plans, focusing on creating an efficient, sustainable and productive working environment that meets world-class standards. We also offer 3D-animated renderings for presentation purposes, which enables clients to digitally view the proposed result – even before the first brick is laid.

Installation

Mac Brothers offers a complete turnkey service to design, produce and install to ensure a safe and effective environment.

Safety compliance

Our Down Draft table designs and performance exceed the strictest international safety requirements and have been independently accredited to contain formaldehyde vapour to below 0.2ppm.

For a comprehensive consultation and design specification, please contact us.
